The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1,3,5 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over AAPA in combination with Ngo et al and Yao et al.

The rejection is maintained as stated in the paper mailed 8/29/03.

In response to applicant's argument regarding gap fill layers vs liner layers. It is not necessary for the references to label the layers in the same manner as in the instant disclosure. The layer formed by Ngo is a first layer formed over metal structures and is seen to be encompassed by the instant claim language.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
